DETAILED ACTION

REASONS FOR ALLOWANCE

[1] The following is an examiner's statement of reasons for allowance: The instant invention is an ophthalmic apparatus.

Prior art was found for non-final and final actions. Applicant's arguments that "Even if Hohla attempted to ensure accuracy of the source of the topographic profile data, it would not be possible because a corneal shape measured when a patient sits upright as in Hohla differs from a corneal shape when the patient is in a prone position during surgery. Hence, topographic profile data is unsuitable for ensuring accuracy of the source of the data", was found to be persuasive. Applicant uniquely claimed a distinct feature in the instant invention, which are not found in the prior art, either singularly or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

[2] Claims 19, 27 and 30 are allowed.
